

FIG. 1

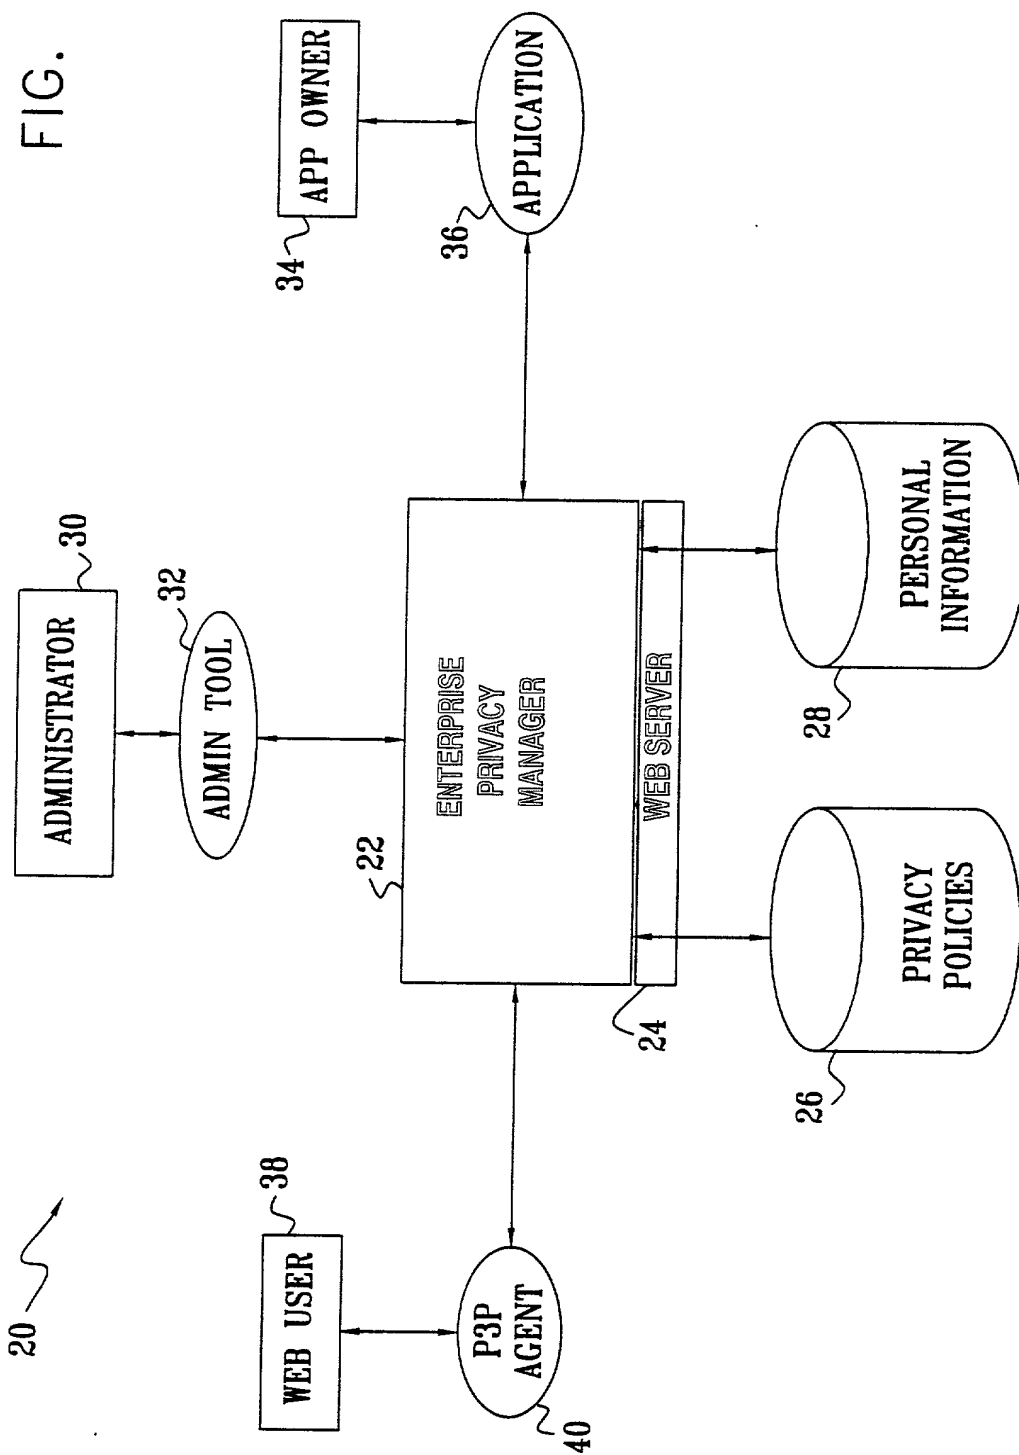

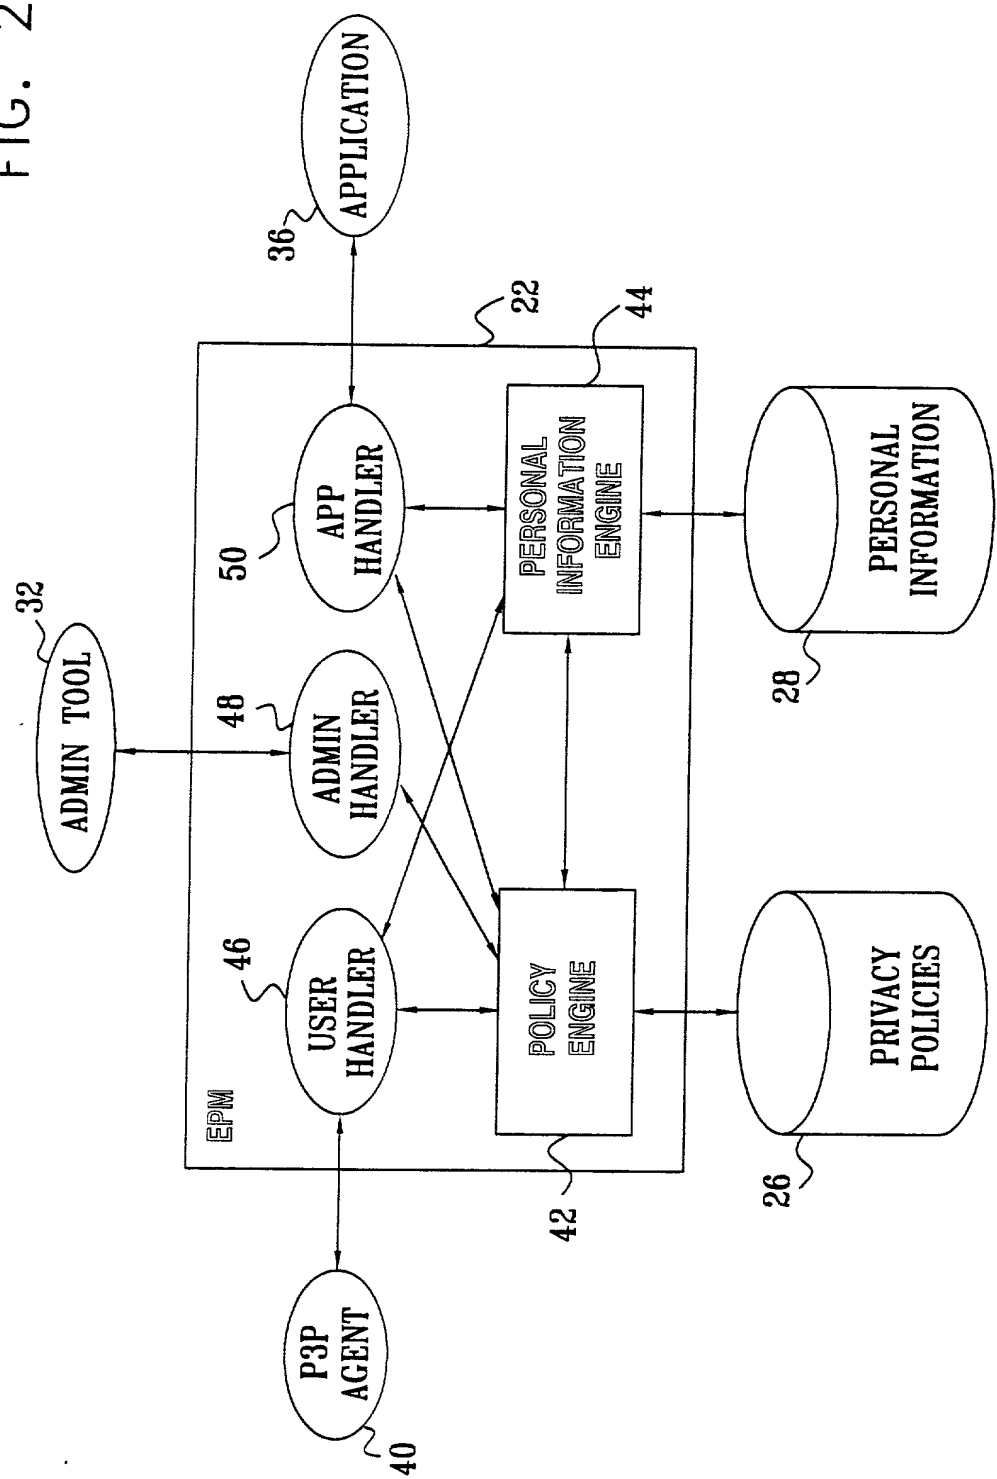

FIG. 2 is a block diagram of a system architecture. The system includes a P3P Agent (40) connected to a User Handler (46) and an Admin Handler (48). The User Handler (46) is connected to a Policy Engine (42). The Admin Handler (48) is connected to a Personal Information Engine (44). Both the Policy Engine (42) and the Personal Information Engine (44) are connected to a central EPM (22). The EPM (22) is also connected to an Application (36). The Policy Engine (42) is connected to a Privacy Policies database (26). The Personal Information Engine (44) is connected to a Personal Information database (28). The Admin Tool (32) is connected to the Admin Handler (48).
